LOVELY HOMES FROM ALABAMA TO L.A.  
NAPA VALLEY SHOWHOUSE TOUR

**Upstairs hall** Project architect David Baker worked with Walter Russell on the incorporation of massive timber columns and salvaged wood for the walls, floors, and ceilings to create enveloping spaces throughout.

**Master bath** The "Margaux" tub from Waterworks is centered between twin vanities.

**Master bedroom** Floor-to-ceiling draperies close behind the camel-backed upholstered headboard. Rough-hewn posts trim a window sitting spot.
